

Light Chalk Stencil Craft

Materials Needed:

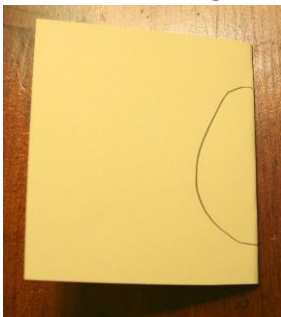

- ✓ Black construction paper
- ✓ Piece of cardboard (try using an old cereal box!)
- ✓ Scissors
- ✓ Cotton balls
- ✓ Chalk
- ✓ White colored pencil

Steps:

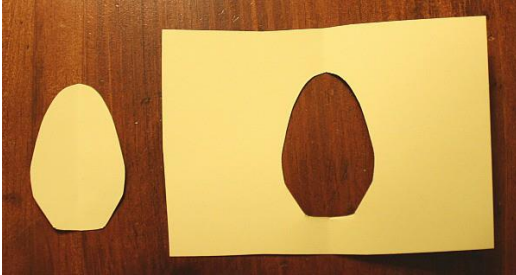

1. Start by drawing a swirly line for your string of lights and add in some little rectangles for where the bulbs are going to go.

2. Fold a piece of your thick cardboard in half and draw half of a lightbulb shape (with the center of the lightbulb going down the fold).

3. Cut it out. This is what you will use for your stencil.

4. Place your stencil on top of the black construction paper and outline it with a piece of colored chalk.

5. Still holding the stencil in place, use a cotton ball to brush the chalk away from the stencil. Do this all the way around the lightbulb stencil.

6. Repeat until finished!

Additional Skill Practice:

Here are some additional skills you can work on with your kiddo related to this craft:

- Color identification
- Expressive/ receptive identification
