

Watermelon Paper Fan

Materials Needed:

- ✓ paper plates
- ✓ large crafting sticks
- ✓ masking tape
- ✓ pink, green, and black paint
- ✓ paintbrush
- ✓ cotton swabs

Steps:

1. Begin by flipping the paper plate over so the bottom is facing up and paint the inside pink.

2. Paint the rim of the paper plate with green tempera paint.

3. Once the paint has dried use a cotton swab dipped in black paint to add the seeds.

4. Once the black paint has completely dried, fold the paper plate in half.

5. Open the plate and use masking tape to attach a large craft stick for the handle of the fan.

Additional Skill Practice:

Here are some additional skills you can work on with your kiddo related to this craft:

- Color identification
- Expressive/ receptive identification
- Counting – count the seeds
