

Blast Off Rockets

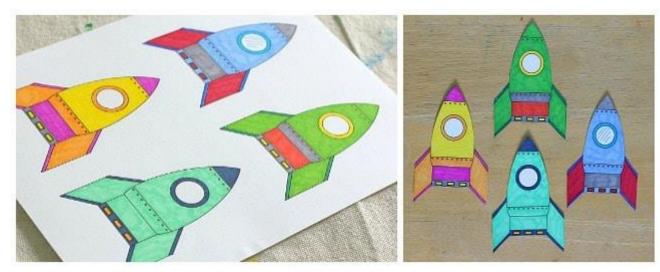

Materials Needed:

- ✓ Straw
- ✓ Tape or Glue
- ✓ Marker, Crayon, or Color Pencil
- ✓ Scissors
- ✓ Rocket Template (located below)
- ✓ Plastic Pipettes

Steps:

1. Print out the rocket template. Color the rockets and cut them out.

2. Cut the bottom off a plastic pipette and attach it to the back of a rocket using tape or glue dots.

3. Slip a straw into your pipette, and you are ready to launch!

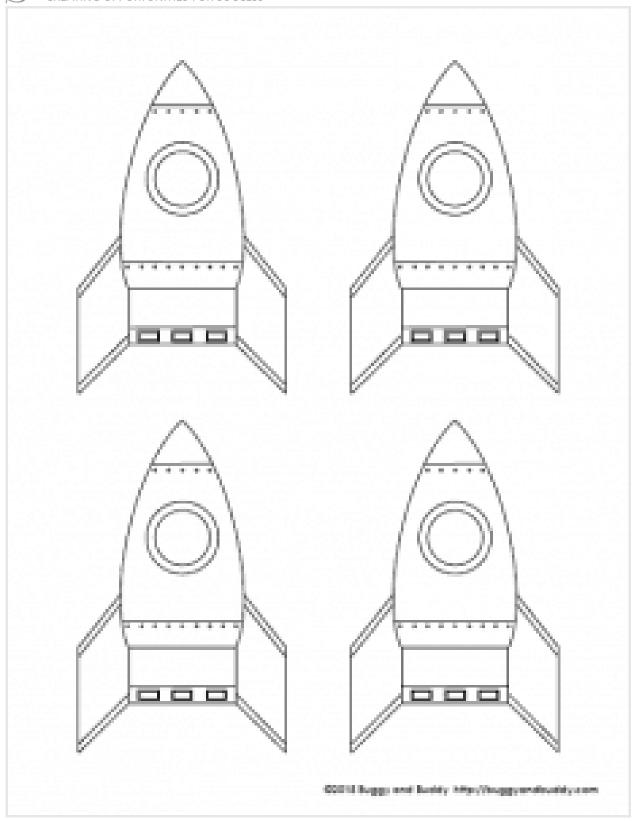

Additional Skill Practice:

Here are some additional skills you can work on with your kiddo related to this craft:

- Imaginative play fly your rocket around on a make believe space mission! Try blowing through the straw to make it blast off!
- Labeling name the different parts of the rocket
- Color Identification identify the colors of your rocket
