

## Paper Plate Doughnut

### **Materials Needed:**

- ✓ Paper plate
- ✓ Paint (brown/tan and variety of colors)
- ✓ Paint brush
- ✓ Scissors
- ✓ Glue
- ✓ Sealable bag(s)
- ✓ Uncooked white rice
- ✓ Food dye

### **Steps:**

1. Place  $\frac{1}{4}$  cup uncooked white rice in a bag with one or two drops of food coloring. Mix and set aside open to dry. Use these as doughnut sprinkles! You can make multiple colored sprinkles if you would like!

2. Fold paper plate in half and cut out the center of the paper plate.

3. Paint rim tan/light brown. Let dry.

4. Use your preferred colored of paint to paint icing! Paint the inside of the rim of your doughnut. Let dry.

5. Add glue

6. Add your "sprinkles" to glue. Let dry.

### **Additional Skill Practice:**

Here are some additional skills you can work on with your kiddo related to this craft:

- Math – use the sprinkles you made as manipulatives for math problems!
- Pretend Play – pretend to be at a doughnut shop, what will you eat with your doughnut?
- Labeling – point to the different parts of the doughnut and label them! There are sprinkles, icing, etc.
