

## Handprint Pete the Cat

### Materials Needed:

- ✓ Blue washable paint
- ✓ Paper (blue, red, and white)
- ✓ Marker
- ✓ Scissors
- ✓ Glue

### Steps:

1. Cut out a cat head/face out of the blue paper.

2. Paint your whole hand blue. You may use gloves if you do not like messy hands.

3. Place your painted hand down on the white piece of paper.

4. Cut out 4 red rectangles for the shoes. Glue them on onto the handprint of your four fingers.

5. Cut out a small red triangle for the nose. Glue it on the center of the face.

6. Cut out 2 small circles for the eyes. Glue onto the face.

7. Use the marker to draw whiskers and other details like laces.

8. Hang up to dry!

### **Additional Skill Practice:**

Here are some additional skills you can work on with your kiddo related to this craft:

- Practice prepositions when giving directions. (ex, Glue eyes above the nose. Glue shoes under.)
- Work on naming the shapes you are cutting out.
- Work on naming the colors of the papers and materials you are using.
- Practice labeling the materials being used. (Ask "What is it?" while holding up the glue stick.)
- Practice receptive commands. (Examples: "Give me glue.")
