

Happy Footprint Penguin:

Materials Needed:

- ✓ Black, white and orange paint, markers or crayons
- ✓ Plain white paper
- ✓ Optional: googly eyes and construction paper

Steps for painting:

1. Place a piece of plain white paper on the floor
2. Paint your entire foot black
3. Step onto the white piece of paper and hold for 5 seconds to create your penguin's body
4. Wash your foot and wait for your penguin body to dry
5. Paint black wings on each side of the body
6. Paint a white stomach onto the body to match the shape of a penguin
7. Cut out eyes and a nose from construction paper and glue on or draw them on with a marker
8. Optional: glue on googly eyes

Steps for tracing:

1. Place a piece of plain white paper on the floor
2. Get someone to help you trace the shape of your foot onto the paper with a black marker to make your penguin body

3. Add wings to each side of the body and color in your penguin
4. Cut out eyes and a nose from construction paper and glue on or draw them on with a marker
5. Optional: glue on googly eyes

Additional Skill Practice:

Here are some additional skills you can work on with your kiddo related to this craft:

- Count the number of eyes, beaks, wings, and toes are on the penguin
- Identify colors on your penguin
- Fine motor: create an icy background for the penguin to live in
